Dear Pine Mountain Property Owner,

As a part of the new North Carolina's Infrastructure Plan for Funding, the State has asked for information regarding all plumbing/water pipe in our community and surrounding areas. I have been tasked to obtain the information for all of Pine Mountain's residents' homes

I have included a **short survey** (*on the back of this letter*) about the composition of all indoor plumbing pipes in Pine Mountain homes. Please answer the questions with an X or ✓ in the corresponding box.

If you are unsure what type of pipe you have, please contact the PMPOA office, as soon as possible, so assistance can be provided to determine the composition of your pipes.

Please return the completed survey to me as soon as possible. It can be placed in the Drop Box (in front of the maintenance building), dropped off at the POA Office (TU & TR), mailed to the office or uploaded and emailed to pinemountainpoa@gmail.com.

Participating in the survey is important to receive infrastructure funding that could be available for our community.

Regards,

Ron Epperson, ORC
Pine Mountain POA Water/Waste Management

PINE MOUNTAIN POA WATER SYSTEM SURVEY 2024
